

About

written by

Speech of Delight is an online magazine of [Shenten Dargye Ling](#) and its community which replaces the newsletter by the same name that our sangha used to have in the past. It has received the encouragement and blessing of our precious teachers and leaders Khenchen Tenpa Yungdrung Rinpoche and Khenpo Gelek Jinpa. They have also agreed to serve, together with Wolfgang Reutter who is a member of the Shenten Dargye Ling Association, on our Editorial Board.

We chose this format because it will allow us to communicate more fluently, without gaps, and also be more interactive. We also want to deliver news to those sangha members who do not use social media. Beside that, we intend to publish longer stories and interviews.

We would also like to be a platform which offers our community an opportunity to be useful; to create an ocean of help with our single drops of generosity. Let us think together how to help together!

May everything be auspicious and may you like what we have created. We plan to add new content frequently.

The team of *Speech of Delight*
